# RARE SEEDS

ROCKY  
MOUNTAINS

AND WESTERN U. S.

FOR SALE BY

D. M. ANDREWS,

BOULDER, COLORADO,

U. S. A.

TO CORRESPONDENTS.

We are pleased again to greet all friends, both old and new, and whether you order this time or not, we would be glad to know if you are still interested in the **Wild Flowers of the Rocky Mountains**, and when you write, why not make your friend glad by sending his address for a copy of this Catalogue? But don't fail to try at least a few seeds for your own garden. If you are inexperienced, state your needs and let us choose the varieties. We do not at our low prices offer discounts, but we fill all orders generously, and forward prepaid to all parts of the world. Foreign customers please remit by International Postal Money Order, and all will oblige by enclosing full payment when ordering.

All seeds are sold at ten cents (10c) per packet, equal to five (5) English pence. A large "trade packet" for twenty cents (20c) of all kinds marked with "tr."

Order by number, but don't forget to mention "**Catalogue 8A.**"

We thank many friends for introducing us to others, and hoping to serve you better this time than ever before, we remain,

Faithfully yours,

D. M. ANDREWS,

Boulder, Colorado.
